The following symbols are used in this list:

*Seasons*

SP Spring March through May  
 S Summer June through August  
 F Fall September through November  
 W Winter December through February

*Abundance Codes*

a Abundant Species is very numerous  
 c Common Almost certain to be observed in suitable habitat  
 u Uncommon Present, but not certain to be observed  
 o Occasional Observed only a few times during a season  
 r Rare Not present every year  
 - Not observed Not observed in that season

*Other Codes*

\* Nesting Has nested in the park

This checklist has been prepared by the Petaluma Wetlands Alliance in cooperation with the City of Petaluma, Department of Parks and Recreation. You are welcome to keep the checklist, but if you do not want to keep it, please return it to the information stand at the park entrance (recycle). Additional information and pictures of the plants and animals here are posted at the Petaluma Wetlands Alliance web page listed below.

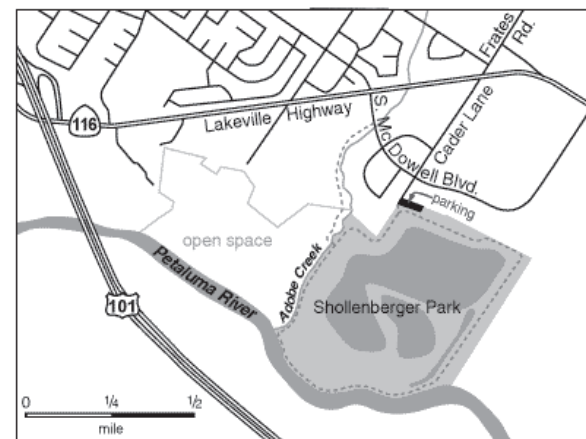

Shollenberger Park, Alman Marsh, and Gray's Ranch are very important wildlife habitat, and provide an opportunity for residents and visitors to see and enjoy the natural wonders of our area. Please treat the land gently.
